A new dream vessel

After the conversion of a fishing boat into the two-masted schooner *Twister* and 14 beautiful years of sailing, André Hanzens decided to convert another ship into a new dream vessel: the topsail schooner *Avatar*. What once was a KFK cutter, has now been converged with new beautiful lines. And just like the *Twister*, *Avatar* is completely transformed into a luxury sailing ship with the feel of a yacht.

Wonderful deck accommodation

Biggest asset is the wonderful deck accommodation with two seating-/dining areas. One on the middle deck and the other one at the rear of the ship, both can be sheltered from the sun or rain. The foredeck and aft deck offer additional seating.

In the deckhouse you will find the lounge with a bar which offers beautiful views of the surroundings. Here you will definitely find a cosy place to spend a pleasant evening.

Below decks are the comfortable double cabins with private shower. Here you will also find the professional galley, where the ship's chef makes the most delicious dishes.

Style and relaxed atmosphere

With her impressive appearance and square sails, the *Avatar* is a welcome guest on nautical events. Her style combined with a relaxed atmosphere, a friendly crew and excellent catering, makes her a pleasant accommodation to receive your clients and enjoy a beautiful sailing day. The *Avatar* will for example visit

the following events: Harbour festival Hamburg, Kiel Week, Hanse Sail Rostock, Sail Bremerhaven and SAIL Amsterdam.

A relaxing holiday

Would you like to go on an active sailing voyage and explore beautiful areas, alone or with a group? Then the *Avatar* is the right place to be. During extended trips, André and his crew will be happy to learn you all there is to know about sailing, even if you have no previous sailing experience. Enjoy a relaxing holiday on board, without hurry or stress. You can rent the ship exclusively for your own group, or you can subscribe to one of the sailing holidays for individual participation. Come along on exploration in Europe or perhaps overseas!
